

Introduction

I have completed this health care directive with much thought. This document gives my treatment choices and preferences and may appoint one or more Health Care Agent(s) to make health care decisions for me if I do not have decision-making capacity. Decision-making capacity means the ability to understand the significant benefits, risks, and alternatives to proposed health care and to make and communicate a health care decision.

If I do not have decision-making capacity for a particular health care decision or group of decisions, my Health Care Agent(s), if named, is/are able to make those health care decisions for me, including the decision to refuse treatments. I know that I can use this health care directive to give my treatment choices and preferences, or I can name and agent, or I can do both. I do not have to do both for this to be a true expression of my wishes.

Any advance care directive document created before this is no longer legal or valid.

Part 4: Any Additional Information Not Already Covered (optional):

I would like to use this space to add any information not already addressed and/or to share additional thoughts:
Part 6: Recommended Next Steps
Now that I have completed my Health Care Directive, I should:
☐ Talk to my loved ones, friends, elders, trusted individuals, and other important people in my life and let them know who my Health Care Agent(s) is/are and what my health care wishes are.
☐ Give copies of this completed document to my Health Care Agent(s) and to my medical provider(s) to be scanned into my electronic medical record.
 I understand this document is not shared between healthcare systems and I will give separate copies to each system where I receive care.
☐ Keep a copy of my Health Care Directive where it can easily be found.
☐ Review my health care wishes whenever any of the "Five D's" occur:
i. Doctor - when I switch medical providers or have a checkup.ii. Death - whenever I experience the death of someone close to me.
iii. Divorce - when I experience a divorce or other major family change.
iv. Diagnosis - when I am diagnosed with a serious health condition.
 v. Decline - when I experience a significant decline or deterioration of an existing health condition, especially when I am unable to live on my own.
If my wishes change, I will fill out a new Health Care Directive. I will give copies of the new document to everyo
